## EXPERIENCE

---

### **Ontario Public Services (MPBSDP)**

*Technical IT Assistant*

May 2025 – Aug 2025

Toronto, Canada

- Engineered internal business applications (scheduling and payroll) utilizing Azure Entra ID for secure authentication.
- Modernized legacy C# applications by refactoring code to meet current security and compliance standards.
- Managed and executed pre-production testing cycles, identifying and resolving critical defects for a seamless release.
- Designed and implemented frontend modifications to ensure AODA compliance, enhancing accessibility for all users.

### **CodeNinjas**

*Classroom Facilitator*

Apr 2023 – May 2025

Ajax, Canada

- Facilitated training sessions on programming and software design.
- Coordinated annual course programs by overseeing scheduling, communications, and finances.
- Curated a dynamic and engaging program curriculum, specialized in robotics, hardware design, and AI.
- Maintain updates on Microsoft Sharepoint including managing permissions and updating company documents.

### **DEVN Music**

*Audio Technician*

May 2023 – present

- Assemble and optimize audio systems, configuring amplifiers, speakers, and equipment for optimal sound quality during live performances.
- Proficiently manage Instagram and TikTok accounts, consistently posting content to drive community engagement.

### **Approved Financial Services**

*Customer Service Rep.*

Nov 2021 – Sep 2022

Ajax, Canada

- Scheduled Outlook calendars on behalf of agents.
- Organized Microsoft Teams meetings.
- Managed and catalogued client documents.
- Entered client data into company database.
